1. Purpose

Standard Operating procedures refer to the set of instructions normally written once that are intended to document how to perform a certain activity. This helps in maintaining the consistency and quality of work carried out.

Some of the benefits of maintaining SOPs are listed below:

- They will be helpful in many workplaces which require strict procedures or adherence to a set of instructions to see to it those certain outcomes are attained.
- They will also serve as a good reference to employees who are required to follow a given set of procedures. It has been shown that even the best of employees tends to forget, this implies that having SOPs will be quite vital in helping all the employees to stick to the right or recommended procedure.
- SOPs are also helping to newly trained employees. They will be key in helping them keep the fresh instructions and they will also act as an easily available reference source.

2. Scope

This document covers the SOP for understanding the process of Contributory Provident Fund Number Allotment and Nominee Creation and Modification for newly hired employees of UPPCL, DISCOMs & UPPTCL covered under the CPF Scheme.

3. Pre-requisites

Following are the pre-requisites for the process:

- The user who is generating the PF number should have access to SAP GUI.
- He should have access to TCode ZPF_TRUST
- The person designated for hiring the employees should have access to SAP GUI and PA40.

4. Procedure:

Action required by DDO

Whenever a new employee is hired in the system through ERP SAP using T-Code PA40, the necessary data of the employee will be updated in the SAP master by the person designated for that purpose. Also, all the necessary documents will be uploaded in the master data.

- 1) DDO will log in to SAP GUI.
- 2) DDO will upload the CPF related Forms/documents in PA30 infotype 9902.
- 3) Once done DDO will inform the Trust team by sending the hard copies of the CPF related Forms/documents. Communication regarding employee hiring will be outside of ERP system.

Action required by CPF Trust team.

The Trust team will check the CPF related Forms/documents uploaded in the ERP system. If documents and master data are correct, the Trust user will generate the PF number. In case, if there is any discrepancy in the documents, the Trust will inform to the respective DDO. This communication will be made outside the ERP system.

- 1) Trust user will log in SAP GUI.
- 2) Trust user will go to PA30 and check the CPF related forms/documents uploaded in the ERP system.
- 3) Trust user will go to ZPF_TRUST and check the master data of the employee. In case, any information is not matching, Trust user should inform to the respective DDO and get it resolved.
- 4) Trust user will add Nominee details of the newly hired employee in ERP SAP.
- 5) Trust user will generate PF number for the newly hired employee. The generated PF number will be visible in the HR master data & ESS portal.
- 6) Trust user can view the list of CPF Hired Employees through ZPF_TRUST dashboard.

Action required by CPF Trust team (Nominee Modification)

- 1) Trust team will get information from the concerned DDO that the nominee of the specific employee needs to be changed. Communication regarding nominee modification will be outside of ERP system.
- 2) Trust team will open ERP system and run PF nominee from ZPF_TRUST dashboard.
- 3) Trust team will modify nominee details in ERP SAP.

Action required by CPF Trust team (PF Details Modification)

- 1) Once CPF No. is allotted to an employee, DDO will not be able to modify any information of the employees covered under the CPF Scheme through info type 587 (Provident Fund).
- 2) Only dedicated Trust users will be able to update details related to Contributory Provident Fund (Trust ID & CPF No.).
- 3) CPF Number, once allotted by the ERP System cannot be modified by any user.

OVERVIEW

UPPCL and its employees' PF number will be auto generated from the SAP ERP system. For this purpose, we have developed a dashboard ZPF_TRUST. In this user manual we are showing steps for PF number allotment and nominee addition.

MENU PATH

Use the SAP Logon.

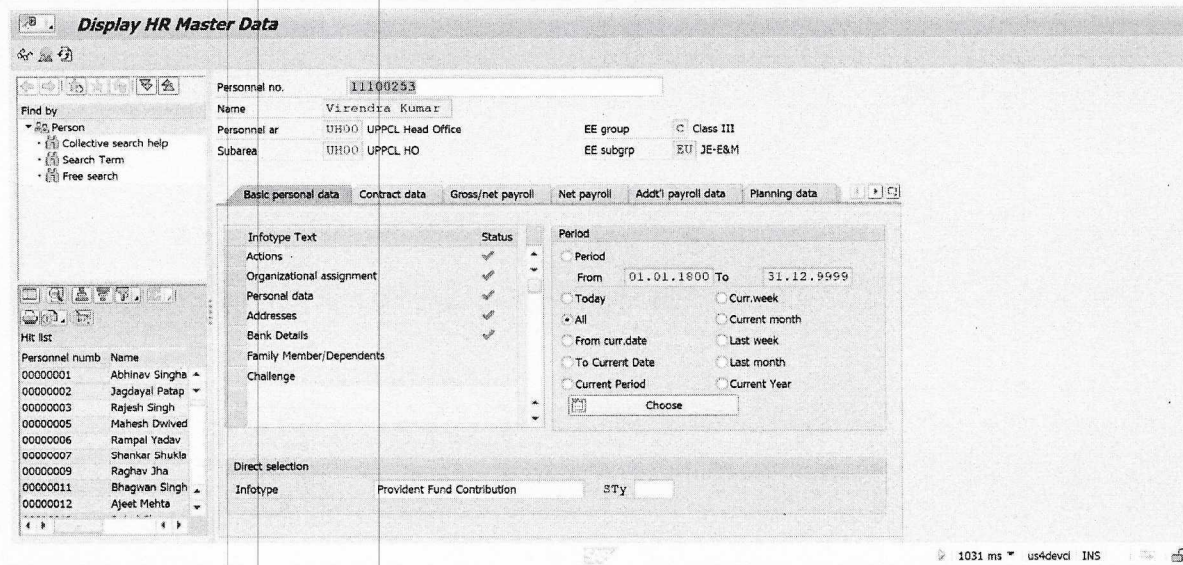

USER ROLE

User should have access to the SAP GUI Log on and also to the ZPF_TRUST dashboard.

STEPS:

A. Employee Hiring and member creation for UPPCL and DISCOMs

1. Hire the new employee through PA40. Please make sure infotype 6 (Address), 9(Bank Details), Infotype 0105 (Communications) and First Name and Last Name both are maintained in Infotype 0002 (Personal Data). Please check the same through PA30 and pa20. Employee Vendor should be created by the scheduler, based on the infotypes mentioned earlier.

2. Please go to infotype 0587 (Provident Fund Contribution) .
